RESIDENTIAL NOTIFICATION

Water Bills will be estimated this month due to snow/ice conditions February 1, 2019

The frozen snow and ice has rendered the majority of in-ground water meters inaccessible. Therefore, the water bill readings being conducted today for January water use will be estimated. Accessible meter pits will remain sealed to prevent meter and line breakage when the lids are opened on the meter wells.

An estimated reading is based on the last 12 months of a customer's water usage. Customers could possibly see their bills being slightly higher in subsequent months following an estimated read. Depending on weather conditions this season, more than one month may be estimated.

This will not affect the electric meter readings. We apologize for the inconvenience.
