## RESIDENTIAL NOTIFICATION

### Residential trash collection concerns

October 11, 2017

We have received reports of trash not being collected on certain trash collection routes and are working with Advanced Disposal Services to resolve these issues. It has been noted by the route drivers that many residents do not have their garbage bins curbside at the time they arrive.

To help us resolve some of the trash collection concerns, we ask that residential customers have their trash bins to the curb by 7:00 am on collection day as that is when the drivers begin collection.

In regards to recycling collection, please keep in mind that recycling will not be collected if the recycling bin is contaminated with regular household garbage. Items in the recycle bin should be clearly visible, and not in black plastic bags.

Residents who adhere to the above items, but have not had their trash collected on the designated day should report it to City Hall at (660) 376-3528.
