Bulky Waste Guidelines

What is Bulky Waste? A piece of furniture or waste material from a residential source with a weight or volume greater than that allowed in carts, bags or cans.

When is Curbside Bulky Waste Collection?

Residential curbside bulky waste collection will take place in May and November. Dates will be negotiated between the City and Advanced Disposal.

Who qualifies for curbside Bulky Waste Collection?

Active residential customers within the boundaries of the City of Marceline that receive a garbage collection charge on their water bill.

Where should Bulky Waste placed for Collection?

Bulky Waste should be placed curbside next to regular garbage on the date designated for cleanup. All items should be placed curbside by 6:00am the day of scheduled collection, or the night prior.

What Bulky Waste items are accepted?

Televisions	Sofas	Sectionals	Chairs
Tables	Boxed Springs	Mattresses	Vanities
Lawn Furniture	Large Toys	Armoires	Lamps
Dressers	Coffee tables	End tables	Light Fixtures
Fans	Shelves		Artificial Christmas Trees

White good collection curbside is available during Bulky Waste Collection for a fee. Contact Advanced Disposal to arrange collection at 800-778-7652 or by email at MaconMO@AdvancedDisposal.com.

Items with special requirements for curbside collection:

Toilets	must have tank removed from base and set beside for collection.
Carpet	must be cut into 4'x4' sections and tied
Carpet Pad	must be cut into 4'x4' sections and tied
Barbeque Grills	propane tanks removed
Push Mowers	gas and oil removed
Mirrors	taped and contained in such a way that it will not explode when crushing

***For curbside collection all absorbent items must be dry for collection due to weight restrictions.*

What Bulky Waste items are not accepted within this program?

Hazardous Material (eg. propane tanks, chemicals, oil, gas, etc.)	Tires
Yard Waste & Vegetation	Auto Parts
Liquids (cooking oil, chemicals, paint, etc.)	Construction or Demolition Material
Banned materials by law	

****Construction or Demolition Material** is considered waste building materials resulting from construction, remodeling, repair or demolition operations.
